**MEDSHILD - GEOCOGEN - METHASYN - STARWIND - HYSOLAR - HELM
for the United Nations Decade of Sustainable Energy for All**

Let us celebrate the 25th Anniversary of the historic World Clean Energy Conference that started Clean Tech and Sustainable Development with the United Nations in Geneva. Date will soon be announced in our Newsletters

International Sustainable Energy Organisation ISEO <http://www.uniseo.org>

POB 200, CH-1211 Geneva 20 - Tel: +41-22-910-3006 - Fax: +41-22-910-3014 e-mail: info@uniseo.org

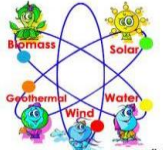

.. on a naturally green planet Earth

Humankind has to find its way back to nature without squandering finite resources polluting the environment and endangering the health.

..... in pure air and with clean water

Air pollution and contaminations of water and food are the reasons for severe health problems that must be drastically reduced by clean sustainable technologies.

..... clean sustainable energy for all

All our associated organizations are working for the implementation of affordable, clean, decentralized environment-friendly energy systems for everybody

..... peacefully in an armless society

The wasteful war budgets of over a Trillion \$ per year must be deviated to peace-building activities and for clean sustainable energies to protect humankind and nature from destruction and to deprive terrorism of all fire arms and explosives !

CMDC

The World Circle of the Consensus (**Cercle Mondial Du Consensus**) initiated 1984 the Global Code of Ethics. In 1992 it proclaimed the **Global Energy Charter for Sustainable Development** by its World Sustainable Energy Coalition **WSEC** at the first Rio Summit www.cmdc.uno

ISEO is the UN-accredited NGO initiated 2002 at the Swiss National Council to promote sustainable energy world-wide, based on the initiative by the World Sustainable Energy Coalition **WSEC** to implement the Global Energy Charter for Sustainable Development www.iseo.uno

ISO jointly with **IEC** in the electrical field and **ITU** for telecommunication are the international technical standardization bodies needed for certification. The ISO standards on energy systems analyses and statistics are indispensable tools for sustainable energy - see ISO/TC203 www.iso.org & www.iec.ch & www.itu.int

The **International Clean Energy Consortium ICEC** was founded in 1991 ahead of the first Rio Summit in 1992 as a vehicle for the implementation of clean energy systems, based on the Global Energy Charter for Sustainable Development. ICEC cooperates with universities, manufacturers and investors. www.icec.ch

The **International Ecoenergy Academy** founded 1994 in Baku for ecological energy policies and solutions is associated with **ISEO** in Geneva to expand its fruitful work world-wide to bring the environment and energy into balance by an updated Blueprint for the Sustainable Energy Age. www.ieacademy.edu.az

Progress Report and Outlook 2016

The call by the UN Secretary General Ban Ki-moon for "**Sustainable Energy for All**" accompanied by the **Sustainable Energy Decade** starting with the ISEO congress in 2012 and the **Sustainable Development Goals** help to implement the **COP21** and **UNEP** goals for less pollution by cleaner technologies. The **UNISDR** and **ISEO MEDSHILD-REDSHILD** projects for natural disaster prevention help humanity to survive safely. The **CMDC Natural Health** and **Global Ethics** initiatives enable humankind to reduce sufferings from human misbehavior.

The world-wide trend towards natural vegetarian bio products is gaining momentum. "Back to nature" should become everyone's passion, realizing that too much chemistry in daily life and agriculture is impairing the health and biosphere. Natural alternative treatments are becoming more and more acceptable by health insurers. The "**Naturally Fit & Healthy**" guide for a sustainable life is available from the ISEO&CMDC secretariat in Geneva.

Membership: Everybody is cordially invited to join ISEO and CMDC for the advancement of clean energy development for a healthier happier life. You may start local action groups for the implementation of clean technologies and meet at joint conferences. You are very welcome to order the ISEO-CMDC Newsletters and publications by the enrolment form under the "Application" button on www.iseo.uno and www.cmdc.uno.
